

SMOKEY GREY FINISH

SMOKEY GREY FINISH

THE SMOKEY GREY FINISH PROVIDES AN ECO FRIENDLY, LOW MAINTENANCE SOLUTION, RESULTING IN A STUNNING AGED LOOK.

The timber can be lightly wire brushed to deepen the grain prior to being coated in Recycled Timbers specialised grey solution coating.

The coating adheres to the surface of the timber and the timber will be weathered naturally over time.

If using timbers externally, Recycled Timbers recommend specifying class 1 durability timbers.
